**B.3 Diversity**

The American Library Association (ALA) promotes equal access to information for all persons and recognizes the ongoing need to increase awareness of and responsiveness to the diversity of the communities we serve. ALA recognizes the critical need for access to library and information resources, services, and technologies by all people, especially those who may experience language or literacy-related barriers; economic distress; cultural or social isolation; physical or attitudinal barriers; racism; discrimination on the basis of appearance, ethnicity, immigrant status, religious background, sexual orientation, gender identity, gender expression; or barriers to equal education, employment, and housing.

Libraries can and should play a crucial role in empowering diverse populations for full participation in a democratic society. In order to accomplish this, however, libraries must utilize multivariate resources and strategies. In the
library workforce, concrete programs of recruitment, training, development, advancement and promotion are needed in order to increase and retain diverse library personnel who are reflective of the society we serve. Within the American Library Association and in the services and operations of libraries, efforts to include diversity in programs, activities, services, professional literature, products and continuing education must be ongoing and encouraged.

Ms. Kropp noted that the Library’s auditor would most likely be attending the November Board meeting to give its annual report to the Board.

There being no further business of the Board, the meeting was adjourned at 11:08 am, on a motion by Ms. Giacomazzo, seconded by Mr. St. John by a 5-0 vote.
